RECOVERY 01

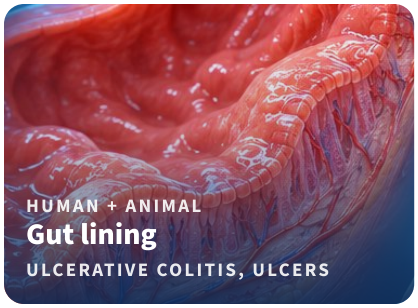

BPC-157

Synthetic 15-amino-acid peptide, copied from part of a protein in human gastric juice

CLASS	STUDIED FOR	HUMAN EVIDENCE	US STATUS
Peptide	Tissue repair, gut lining	Small human studies	Not FDA approved · compounding allowed

STUDIED FOR

Knee pain	Bladder pain	Wound healing
HUMAN	HUMAN	ANIMAL

Human data are limited. FDA counts five small human studies, about 80 people given BPC-157. Most research is in rats.

HOW IT WORKS IN THE BODY

BPC-157 ▶ Vessel growth ▶ Growth factors ▶ Tissue repair

- **Blood-vessel growth** described in experimental (animal) models
- **Growth-factor signaling** tied to repair, in animal models
- Most studied in the **gut lining** and connective tissue
- **In people,** the mechanism is not established

EVIDENCE & WHAT'S KNOWN

EVIDENCE

SMALL HUMAN
LEVEL 3 OF 5

- Mostly animal data
- 5 small human studies
- No controlled trials of the routes men use

NOT YET ESTABLISHED

- Long-term safety
- Half-life in people
- Side-effect profile
- Drug interactions

QUICK PRACTICAL INFO

HALF-LIFE
Not established in people

ROUTES STUDIED
Not the oral, under-skin, nasal or skin routes in common use

PHARMACOKINETICS
Limited human data

SOLD AS
Compounded (Rx) or "research use only"

MONITORED IN TRIALS
GI symptoms, pain scores

SPORT (WADA)
Prohibited, class S0

REGULATORY					
FDA	Not approved	HHS	Compounding allowed, 10 conditions (Oct 2026)	WADA	Prohibited (S0)
